Features

Lightweight BB Cream (Blemish Balm Cream) for oily, combination, acne-prone, and sensitive skin types. Works as a makeup foundation that provides buildable coverage and a smooth finish.

Perfect for both daily base makeup and skincare routines. Keeps your skin supple, hydrated, and moisturized.

POST-TREATMENT SKINCARE: In case you can't wear any skincare or makeup products after a skin treatment, our gentle, moisturizing BB Cream will help to even skin tone and cover imperfections, redness or hide blemishes. This silky formulation won't clog pores, setting like your skin's texture with a natural-looking radiance. With SPF50+/PA++++, it also acts as a tinted sunscreen for the face, with broad spectrum UVA & UVB sun protection.

HYPOALLERGENIC SPF MOISTURIZER: Formulated with the most gentle skincare ingredients, our facial BB cream is more hygienic with the squeezable tube and spoid-type applicator and it helps create a great initial layer for makeup.

AESTHETIC BB CREAM A FORMULA

Special Formula

1. Y.O.U Pore Formula (Smoothing powder** Pore Formula):

Every pore is different. Pores have different shapes. (Please refer below for Y.O.U shapes).

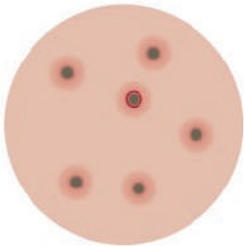

TROIAREUKE Aesthetic BB Cream A Formula has different sized blemish balm particles that fit according to your pores.

- (1) Y-shaped pores: Aging, lack of nutrients
- (2) O-shaped pores: Hormones, excess sebum, oily skin
- (3) U-shaped pores: Dryness, lack of elasticity

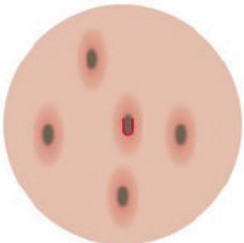

Y-SHAPE

Y-shaped pores are likely to be found in aging skin, which is caused by free radicals resulting in a lack of elasticity, developing wrinkles. The specially developed TROIAREUKE Aesthetic BB Cream A Formula will protect your skin from harmful factors, including pollution and electromagnetic radiation from computers and mobile phones.

O-SHAPE

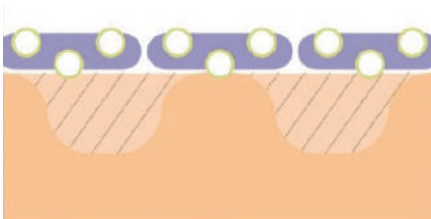

O-shaped pores are typically caused by hormones, but are also commonly found on those with oily skin types. Without proper care, they are easily clogged, which can result in adolescent and adult acne as well. If you have O-shaped pores, it could mean that your pores have already enlarged. Oily skin may have caused excessive sebum and acne-causing bacteria, with sebum clogging the pores, enlarging them.

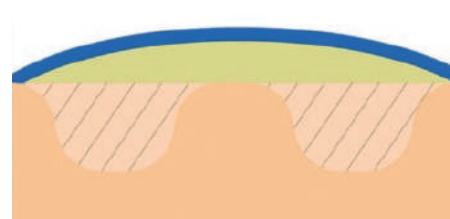

U-SHAPE

U-shaped pores tend to be caused by dryness and lack nutrients. The more dry our skin is, the more likely it is to be sensitive. TROIAREUKE Aesthetic BB Cream A Formula features Moist Most Complex™, which will keep moisture in the skin all day and also effectively encourage skin recovery.
