Features

A ceramide cream that creates a moisture shield at the last step of your skincare routine. This facial moisturizer fills up the gaps in between so your skin is smooth, firm, and naturally glowing after application, which allows your makeup to look dewy and last much longer.

TROIAREUKE SHIELD CREAM maintains moisture and hydration in the skin in both cool and warm weather, making it a perfect year-round moisturizer.

Clinical tests proved an 379.95% increase in skin moisture after one-time use, and 195.67% after applying artificial hot and cold air for 15 minutes respectively.

SHIELD CREAM

How to use

Apply after essence
(Cleansing – Toner – Essence – Cream).

Towards the end of your skincare routine, dispense 3 pea-sized amounts and spread evenly all over the face. You can also apply a lighter moisturizer before TROIAREUKE Shield Cream as it creates a protective moisture barrier on the surface.

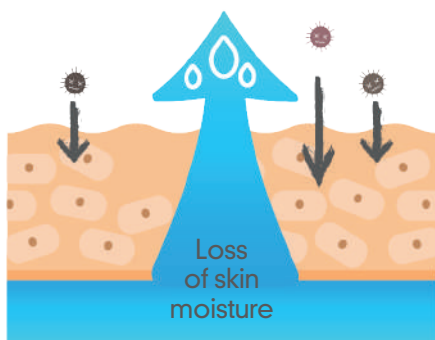

PROFESSIONAL TIP

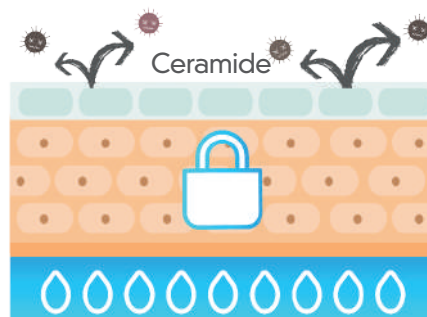

TROIAREUKE SHIELD CREAM is a barrier protection cream. After TROIPEEL Resurfacing Treatment or laser treatments, the skin feels dry and needs a boost of moisture. TROIAREUKE Shield Cream contains Ceramide NP which is a class of fatty acids naturally found in the skin. It helps create a skin barrier to protect the skin and keep harmful environmental irritants out. It locks in moisture and helps to prevent dryness, irritation and dehydration.

Technical

When the lipid and skin cell barrier is weak or broken, moisture is easily lost, leaving more risk for skin damage.

Ceramide NP helps to protect the skin from dirt, impurities and other external factors, while boosting skin radiance.
